CABE MONECO-ECONTRIO SUMMER CONFERENCE

2009 ECONOMIC OUTLOOK POLICY FORUM

MANAGING THE RECOVERY

Every August on the Monday and Tuesday of the last full week, the Canadian Association for Business Economics (CABE) hosts a policy conference in Kingston, Ontario.

This annual gathering has its roots almost 40 years ago as it evolved from the Moneco-Econtro conference. Since 1961, a group of business and government economists have been organizing a summer conference to discuss the key issues affecting the Canadian economy.

The conference has been held in Kingston at the end of August ever since. Originally an autonomous group, the organization of the conference was folded into the organization of the Canadian Association for Business Economics some years ago.

The focus of this year's conference is on managing the recovery, a somewhat optimistic note, with an emphasis on medium term issues.

This year's speaker roster and topics are provided below.

Dinner & Keynote Address:

Dr. David Laidler, Professor Emeritus, Dept. of Economics, University of Western Ontario
